## CERTIFIED EXCELLENT QUALITY MUD

The **Euganean Thermal Baths** are the largest thermal spa in Europe, recognized internationally for the medical and preventive treatments performed with **hyperthermal waters and quality mud that is tested and patented.**

The curative efficiency is today demonstrated by numerous studies carried out by the **Centro Studi Termali Pietro d'Abano** (Pietro d'Abano Thermal Study Centre), an organization that, in cooperation with universities and other research institutions, aims to **preserve and disseminate the scientific and therapeutic validity** of the thermal treatments of the Euganean basin.

The Study Centre has shown that the active ingredients produced by the biological component of the thermal mud have an anti inflammatory effect that is equal to that of any relevant medication, but **without side effects.**

The intellectual property rights of these findings is guaranteed to the Centro Studi Termali Study Pietro d'Abano by two patents: one Italian from 2009 (Patent No. 0001355006) and one extended at a European level in 2013 (patent No. 1571203) as proof of the real and effective value of the thermal mud from the Euganean basin.

**CENTRO STUDI TERMALI  
PIETRO D'ABANO**

**The thermal establishment "Hotel Mioni Pezzato" is supervised by Centro Studi Termali and University of Padua for the control of the maturation and quality of its mud.**
